Dear Michan,

Halo, Sayang!!! We will probably be in the midst of USS as you are reading this, I hope you are having the best time of your life hehe ~~

But anyways,

Happiest Birthday to you, my love!!! You are now 20, udh kepala dua aja huhuhuhuhu, saatnya untuk menerima realita jadi the real working adult :) My letter this year probably won't be as long as last year because I just wanna straightforward this time and don't yap too much loll biar kamu gak bosan liatin tulisan aku mulu. We wrote each other letters a lot anyways....

My wish for these years shall be bahagia aja sih hehe, I just want you to be happy nothing else more, but of course, harus sehat juga, dietnya semoga berhasil and jadi heheh, semoga juga internnya dapet pastinya, and I hope you can regain your youth and cheery smile back for the next year, alsooo enjoy your exchangeee yaaa, I will always be there whenever you need me, love.

Well, looking back.....gak kerasa ya udah satu tahun sejak surprise kamu itu HHAHAHAHAHAHA, I remember you were so vengeful, but I was very happy that it made you very touched and happy, at least, I would like to assume so, lol. I hope you will be able to enjoy your bday juga this year dengan kita ke USS ini hehehehe. It has always been on my bucket list as well to go on an amusement park date, and I can never imagine a better accompaniment other than you, what more on your bday!!!. WOW, bahkan ultah kita berdua barengan di amusement park ya ini hehe. Enjoy the current moment, sayang karena kita akan ditampar realita lagi :)

But again, looking back, as I am writing this letter, I keep on thinking what you have achieved on your 19th, what we have gone through. And I think of it, I just fell in love more and respect you more. The one year back Michan will probably be so proud of what he has achieved as far. From being the MusDir that created the most bonded portfolio ever in the whole ICN, composing countless pieces of music, finishing Entrepreneurship (???), having like 3 CCAs concurrently as MainCom, joining his first every case competition, learning many more stuffs, and many more, but of course can't forget the getting such an amazing gf :) (i'm joking)

All jokes aside, sometimes aku masih merasa kalau aku masih harus ngejar kamu, karena pacar i keren banget hehe. Tapi at the end, aku berusaha gak mikirin itu, I justru merasa kita complete each other hehe, we do complement each other. Jadi kamu jangan pernah juga insecure insecure karena I feel like we both have our pros and cons, which is why kita bareng2 untuk complete each other hohoho, keren sih kita brow, power couple dults!!

Makasih ya beb for holding up with me for these 10 months, udh mau 10 months enggak kerasa banget, but I believe that it's because you are who I went through this with, gak kerasa waktu berjalan begitu cepat, karena you always make me feel grateful of the fact that I can still wake up everyday, able to see you once more, despite all the good and bad things that happened. I enjoy each and every moment with you, there's just something that I cannot explain about being with you, very warm and comfortable, just like my personal teddy bear hehehehe. But thank you for bringing me comfort and letting me know that you are always the place I can rest and rely on every single day.

For the one year ahead, I believe you have wonderful things waiting for you. The road may be tough and thorny, but it will definitely be beautiful and colorful at the same time. Remember, after sunset, there comes darkness, but after darkness, there also comes a new day. Thrive through and you will make it. But, of course, it's Michan, he does that always, though with the 'T; in his MBTI raging lollll. So, the thing that I would like to emphasize is don't overwork yourself yep, harus selalu ingat juga, there are many around you yang can make you happy too. Enjoy your uni life while you can, karena time does pass by so fast, as fast as you can never imagine. I am very happy to see you be truly loved by the people around you. May you notice of the warmth around you too.

Sometimes I do know you face many doubts, many challenges, and many blunders too of course, but keep being the Michan I know. I have always admired many things about you, from the way you always try to do things positively, to how you work hard for it, you always strive, bahkan kadang gak takut gagal, you always dare to try for new things. Aku kadang gak ngerti how you do it, kok bisa lo seberani itu. Keren banget deh pacar saya WKWKKWKWKWK :) I have always respected and admired you for it. And I can attest that many do so too.

A very important untuk tahun depan juga is definitely untuk GEREJAAAAA!!!! Kita udah makin jauh sama Tuhan rasanya, terlalu fokus sama hal-hal duniawi and dengan hal2 yang nyakitin kita. Jadi, ayuk kita bangun lagi hidup rohaninya bareng2 hehe, karena pada akhirnya hubungan kita juga definitely berbasis pada Tuhan. We will grow and be stronger within Him.

Of course, juga untuk kita belajar lagi socializing and regain ourselves hehehe. We can do this together beb, definitely. In reaching balance, pasti ada trial and error, jadi kita coba-coba terus aja, Harus nyoba terus pantang menyerah bro hehe.

Makasih ya beb udah selalu ada di kala I bener in my darkest times, always showing me the positive sides of life, and giving me advice on all the things that I can fix on. You have always taken care of my health too, and one core memory of mine in our relationship is definitely when you hug me in between my depression and tears as I got back from Fullerton, lol core memories for real. Thank you for all the noticed and unnoticed sacrifices you have made for me. And thank you for understanding me. Always.

Thank you for teaching me how to be better in life. Thank you for being there as my biggest blessing in my uni life. I am happy to see you grow in your 19th year and I am very excited to see you in the next phase of your life. Jangan sedih2 ya kita LDR heheheheh, kita pasti bisa, trust bro.

Maaf juga ya kalau aku belum bisa jadi the perfect girlfriend for you huhuh, masih banyak kurang, masih sering mbencekno hehe, masih sering buat kamu sedih huhuhuhuh. Thank you for accepting and being with me for who I am.

Happiest 20th birthday, my love. I wish you nothing but the best as you step to a new phase in your life. Happy happy terus hehehe, semoga kamu suka dengan ultah kamu kali ini and it is memorable for you to remember forward. Kurang-kurangnya stressnya, banyakin happynya hehehe.

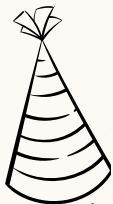

To my imperfectly perfect boyfriend, I love you, sayang.

Loving You with All My Heart,
Trisha
